

May 24, 1966

The Honorable Thomas H. Kuchel
Senate Office Building
Washington, D.C.

Dear Senator:

It was an extraordinary pleasure to meet you for the kind of discussion we had, when I know how you are indeed plagued with so many thought-robbing details of government. I hope we can have the occasion and time to pursue the discourse; certainly I am at your disposal for any relevant occasion.

In particular, Dean Glaser and I will remind you of your good intention to accept our invitation to visit Stanford Medical School in an informal way when you can - we hope perhaps this fall. Further, I will be in touch with Mr. Merriam about some statements that may help open up the issues we discussed for deeper public discussion.

Sincerely yours,

Joshua Lederberg
Professor of Genetics
